Axesstel Signs Distribution Agreement with Brightstar

SAN DIEGO – Jan. 29, 2008 – Axesstel Inc. (AMEX: AFT), a leader in the design and development of fixed wireless voice and broadband data products, entered an exclusive agreement with Brightstar Corp. to distribute its CDMA fixed wireless voice and broadband data products.

Brightstar is a global leader in customized distribution and supply chain solutions for the wireless telecommunications industry. Brightstar will be the exclusive Venezuelan distributor of Axesstel's CDMA fixed wireless voice and broadband data products, which includes phones, modems, gateways and other data devices. Under the terms of the agreement, the companies may expand this arrangement in other countries in Latin America or around the world.

"We believe partnering with Brightstar will effectively increase our penetration in the Venezuelan market, while improving our risk management associated with receivables," said Mike Kwon, chief executive officer of Axesstel. "Brightstar's proven expertise in driving business in challenging markets has made them an industry leader with a strong track record."

Continued Kwon, "We believe this agreement will help drive sales and ultimately improve our financial position."

"We are excited to be working with Axesstel," said Marcelo Claire, president and chief executive officer of Brightstar. "The company has gained a reputation for high quality products, and we believe its products are well suited to meet the growing needs of the Venezuela market. We look forward to bringing our combined solution to additional markets in the near future."
